Centro de Atención Primaria

The screenshot shows a Mozilla Firefox browser window displaying the website for the Centro de Atención Primaria (CAP). The browser's address bar shows the URL <http://www.cap-semfyc.com/fCap.php>. The website header features the CAP logo (C@P) and the text "revista de la Sociedad Española de Medicina de Familia y Comunitaria". A prominent banner states: "Actualización en Medicina de Familia" and "Acreditado con 10,2 créditos para el primer semestre y 8,5 créditos para el segundo semestre y...". The page is dated "29 de Agosto de 2009" and includes a navigation menu on the left with categories like "Noticias", "Preguntas clínicas semFYC", and "Hemeroteca". The main content area is divided into sections: "¡Bienvenid@!", "Casos Clínicos" (listing cases 202, 201, and 200), "Últimas Noticias" (mentioning H1N1 and a health guide), and "Hemeroteca" (listing various medical journals like Family and Community Health, BMJ, and JAMA). A login form is visible in the bottom left, and the Windows taskbar at the bottom shows the system clock at 14:48.

Dermis.net

The screenshot shows a Mozilla Firefox browser window displaying the DermIS website. The browser's address bar shows the URL <http://www.dermis.net/dermisroot/en/home/index.htm>. The website header features the DermIS logo and the text "Dermatology Information System". Below the header, there are navigation links: "DOIA", "PeDOIA", "Information Modules", "Organisations", "User Input", and "Info". A search bar is located on the left side, with a "search string" input field and a search button. Below the search bar, there are two sections: "by alphabet" and "by localization". The "by alphabet" section contains a grid of letters from A to Z, with a "*" in the first row. The "by localization" section contains two illustrations of a human body, one showing the front and one showing the back. The main content area on the right contains the following text: "DermIS.net is the largest dermatology information service available on the internet. It offers elaborate image atlases (DOIA and PeDOIA) complete with diagnoses and differential diagnoses, case reports and additional information on almost all skin diseases". Below this, it says "Additionally, DermIS offers:" followed by three bullet points: "Information modules on selected diseases", "Organisations which are hosted by DermIS", and "Additional Information". The "Additional Information" section contains the text: "A large collection of links with web pages of hospitals, medical journals and much more." At the bottom of the page, there is a logo for "INTENDIS" with the tagline "making medicine work". Below the logo, it says "A cooperation between the Dept. of Clinical Social Medicine (Univ. of Heidelberg) and the Dept. of Dermatology (Univ. of Erlangen)". The browser window also shows several open tabs: "Windows Live Hotmail", "Web 2.0 de Ernesto Barrera", "Facebook | Inicio", "DermIS", "dermatoweb.net", and "DermAtlas: Dermatology I...". The taskbar at the bottom shows the Windows Start button, several application icons, and the system tray with the time 14:49.

This atlas is organized into three headings:

- Pathology
- Diseases
- Radiologic signs

The atlas may be utilized by any student wishing to gain more knowledge regarding chest x-rays. It is anticipated that you will continue to read textbooks, and use this module for review purposes. These films are my teaching collections. They are presented in alphabetical order. Some cases are used in multiple locations to convey various concepts. If you click the images with blue border, a new window will open with a larger size film. Close the window to return.. I would love to receive constructive criticism, particularly from Radiologists. I would also love to receive cases to add to the collection. I will acknowledge the source.
